

# Recall of aluminum air cylinders

During product observation and quality control measures the J. G. ANSCHÜTZ GmbH & Co. KG has found out that a certain production lot may show material defects at the compressed air cylinders of target air rifles.

This material defect may lead to a sudden failure of the aluminum air cylinder. The manometer or the filling valve may loosen from the air cylinder. Serious injuries cannot be excluded.

For safety reasons a check and - if necessary - exchange by the manufacturer is essential. The below listed air cylinder series – only until year of manufacture December 2005 - may be concerned:

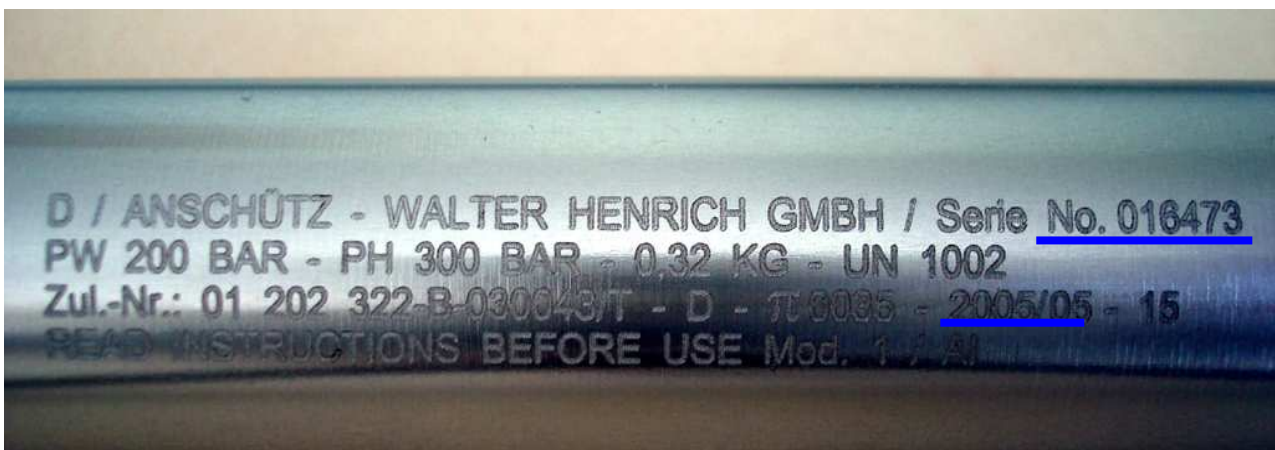

The aluminum air cylinders are numbered consecutively:

- **Air cylinder, silver, length 430 mm:** from **012947** to **016846**, Item-No. 711.3415
- **Air cylinder, red, length 430 mm:** from **002444** to **002527**, Item-No. 711.3414
- **Air cylinder, black, length 430 mm:** from **000006** to **000053**, Item-No. 711.3413
- **Air cylinder, Junior, length 290 mm:** from **001632** to **002225**, Item-No. 711.3412

Without check the concerned air cylinders must not be used anymore. They must be emptied immediately according to attached procedure.

The above mentioned blue numbers are indestructibly engraved on your air cylinder. For the position of the serial number and the year of manufacture on the air cylinder see below picture, it is marked in blue. Please control your air cylinder immediately. When the number on your air cylinder matches with one of the above mentioned numbers, then empty your air cylinder. It must not be filled again.

Please send the concerned, empty air cylinder directly to J. G. ANSCHÜTZ GmbH & Co. KG, department "air cylinder check", Daimlerstr. 12, 89079 Ulm / Germany, for check, or send it to any authorized ANSCHÜTZ sales partner in your country. Our sales partners are listed on our website.

ANSCHÜTZ also refers to further information for handling with compressed air cylinders which are listed in the instruction leaflets and on the internet pages of [www.anschuetz-sport.com](http://www.anschuetz-sport.com) and [www.walter-henrich-gmbh.de](http://www.walter-henrich-gmbh.de).

Please note that this recall only refers to the aluminum air cylinders and not to the complete target air rifle.
